## Our Organization

- **The Organization**  
Digital One is a full-service litigation support company privately owned and operated since 1992. Over 100 years of combined hands-on experience in the litigation support industry.
- **Products and Services**  
We implement defensible “award winning” discovery technology solutions with your case objectives in mind allowing us to adapt to fluctuating environments.
- **Financial Stability**  
Privately held corporation with low overhead, keeping prices competitive and flexible with great quality.
- **National Network**  
Our core management team has solidified strategic relationships nationally for nearly 20 years, giving our clients the flexibility with local support while traveling.

## About Us

- **The Value We Bring**  
Innovation and entrepreneurial approach with personalized service: You will be assigned a direct point of contact with the additional support from our team of project managers.
- **Our Experience**  
25 years in the legal industry supporting law firms and in-house legal teams.
- **Unique Perspective**  
Our 100 plus years of combined law firm and vendor experience in the legal industry has put us at an advantage at each and of the service spectrum as a litigation support technology solutions vendor supporting law firms and corporate legal departments:
  - First as Copy Litigation Company (formerly Copy1)
  - Next as Litigation Support Vendor providing document scanning and coding services
  - And currently, as a premier e-Discovery vendor.

This unique combination of experience has allowed us a clearer insight into:

  - Understanding the importance of predictable cost
  - Providing experienced e-Discovery consultation
  - The importance of clear and concise communication
  - Delivering superior data intelligence with electronically stored information to investigate whether to fight or settle the case
  - The working lives of legal secretaries, paralegals, attorneys, litigation support professionals and corporate counsels
  - Understanding the value of committed service and the need for quality deliverables.
- **Our Commitment**  
To communicate, support, consult and service our clients, from the initial investigation, to the meet and confer and Electronic Data Discovery (EDD) covering the full stages of the EDRM solutions, allowing ease of workflow, project management, defensible litigation best practices with cost effective solutions.
